

Comparative Resume Generation
using Multiple LLMs

Section 1 – Prompt

Generate me a one-page professional resume for applying a job

Name: John Francis Bacala
Email: jbacala@addu.edu.ph
Phone: 09186076808

Education:
Our lady of Fatima Academy
Elementary - Junior High School

University of Immaculate Conception
Senior High School

University of Mindanao
1st year college
Bachelor of Science in Information Technology

Ateneo de Davao University
2nd Year - Onward
Bachelor of Science in Information Technology

Skills:
Java, Html, css, JavaScript, Python, Mysql, Arduino

Projects/Experience:
- OPTIMIZING CROP GROWTH IN MINI GREENHOUSE WITH AUTOMATED
SPRINKLER SYSTEM FOR SMART URBAN AGRICULTURE

Group Capstone project

An automated sprinkler system for smart urban agriculture in mini greenhouses
optimizing the crop growth with arduino.

Use a clean, professional format with clear section headings.
Keep it concise, suitable and readable for entry-level job applications.

Section 2 – LLM Outputs

➤ LLM #1 - ChatGPT:

JOHN FRANCIS BACALA

 jbacala@addu.edu.ph |  09186076808

OBJECTIVE

Motivated and detail-oriented Information Technology student seeking an entry-level position where I can apply my programming skills, contribute to innovative projects, and grow professionally in the tech industry.

EDUCATION

Ateneo de Davao University

Bachelor of Science in Information Technology
2nd Year – Present

University of Mindanao

Bachelor of Science in Information Technology
1st Year

University of Immaculate Conception

Senior High School

Our Lady of Fatima Academy

Elementary – Junior High School

TECHNICAL SKILLS

- Programming: Java, Python, JavaScript
 - Web Development: HTML, CSS
 - Database: MySQL
 - Hardware/Embedded Systems: Arduino
 - Other: Basic problem-solving, teamwork, and project collaboration
-

PROJECTS / EXPERIENCE

Optimizing Crop Growth in Mini Greenhouse with Automated Sprinkler System for Smart Urban Agriculture

Group Capstone Project

- Developed an automated sprinkler system using Arduino to optimize crop growth in a mini greenhouse environment
 - Integrated sensors to monitor environmental conditions and automate watering processes
 - Contributed to system design, coding, and testing phases
 - Improved efficiency and sustainability for small-scale urban agriculture
-

ADDITIONAL INFORMATION

- Strong willingness to learn and adapt to new technologies
 - Effective team player with good communication skills
 - Passionate about technology and innovation
-

➤ LLM #2 - Gemini

John Francis Bacala

Phone: 09186076808 | **Email:** jbacala@addu.edu.ph

Location: Davao City, Philippines

Professional Summary

Dedicated and technically-proficient **Information Technology** student with a strong foundation in software development and hardware integration. Experienced in full-stack web technologies and IoT solutions through academic projects. Eager to leverage technical skills in Java, Python, and web development to contribute to innovative IT solutions.

Technical Skills

- **Languages:** Java, Python, JavaScript, HTML5, CSS3
 - **Database Management:** MySQL
 - **Hardware/IoT:** Arduino, Sensor Integration, Automated Systems
 - **Core Competencies:** Problem Solving, System Optimization, Rapid Prototyping
-

Projects

Optimizing Crop Growth in Mini Greenhouses (Capstone)

Lead Developer / Hardware Integrator

- Engineered an **Automated Sprinkler System** using **Arduino** to regulate moisture levels for urban agriculture environments.
 - Programmed sensor logic to monitor environmental variables, ensuring optimal water usage and crop health.
 - Integrated hardware components with software triggers to create a self-sustaining "Smart Greenhouse" prototype.
-

Education

Ateneo de Davao University

Bachelor of Science in Information Technology | 2024 – Present

- Currently completing advanced coursework in IT systems and development.

University of Mindanao

Bachelor of Science in Information Technology | 2023 – 2024

- Completed foundational year with a focus on core programming concepts.

University of Immaculate Conception

Senior High School Diploma

- Academic Track focused on preparation for higher technical education.

Our Lady of Fatima Academy

Junior High School & Elementary

Key Strengths

- **Adaptability:** Proven ability to transition between different academic environments and technologies.
- **Technical Versatility:** Capable of working on both high-level web applications and low-level hardware programming.
- **Collaboration:** Experienced in working within group settings to deliver complex Capstone projects on schedule.

Section 3 – Comparison Table

<u>Criteria</u>	<u>LLM #1</u>	<u>LLM #2</u>
<u>Structure</u>		✓
<u>Clarity</u>	✓	
<u>Formatting</u>	✓	
<u>Overall Quality</u>	✓	

Section 4 – Reflection (200–300 words)

- ChatGPT and Gemini are the LLM I used in creating my resume, so both output is same but also different, what I meant is that structurally both are different. In the LLM ChatGPT it prioritized the education first so it is more like an education resume for me, and Gemini prioritized the skills and projects so it is more like a job resume which is the goal of my prompt job resume. But in clarity and formatting both are close but I'll give it to ChatGPT because it is more clean and more readable compared to gemini, which is also clean but it feels a little bit messy to read for me. Concerningly, the gemini includes information like the date of my education which I did not include in the prompt but in the output gemini included the year accurately. I don't know how it got that information so it is a bit terrifying. Gemini also includes information about the location, probably because all the education is in the same location so I'll give Gemini points for that. Both ChatGPT and Gemini added an opening section but a different section. ChatGPT added the "Objective" section, while Gemini added the "Professional Summary" so both LLM got points for that. Both LLM can help assist users to help and guide the user in making the structure of the resume so the resume is more impactful when applying for a job. But I also notice both reached beyond one-page.
